Safety Data Sheet

Section 1: Identification

George Taub Products, Inc.
277 New York Avenue
Jersey City, NJ USA

Phone Numbers:
24 Hr. Emergency: Chemtrec 800-424-9300, 703-527-3887
Customer Service: 201-798-5353

IDENTITY Trade Name: Ca-Lok

Chemical Description: Acrylate Resin, Inorganic Filler

Product Use: Cavity Liner/Base Material for Use Beneath Composite Resin Restorations

Section 2: Hazard(s) Identification

HAZARDOUS IDENTIFICATION

Ingredients Acrylate Resins - Possible skin irritant.

FIRE AND EXPLOSION HAZARD DATA

Extinguishing Media: Use dry chemical, CO₂, alcohol resistant foam, water spray.

Hazardous Combustion Products / Unusual Fire and Explosion Hazards:

Heat, aging or contamination can lead to rapid polymerization.

REACTIVITY DATA

Stability: Stable under normal conditions of use and storage.

HEALTH HAZARD DATA

Summary of Acute Hazards: Minimal health hazard under normal conditions of use and storage and in the quantities present in this product. May be irritating to eyes, skin, or respiratory tract. In large quantities and with prolonged exposure. Contains triclosan. Individuals known to be sensitive to acrylic resins or triclosan should avoid using his product.

Route of Exposure Signs & Symptoms

Inhalation No known threat.

Eye Contact Resins may irritate eyes.

Ingestion Harmful if swallowed.

Skin Absorption May cause skin irritation.

Skin Contact Resins may cause possible allergic skin reaction. Prolonged/repeated exposure may cause skin to become red or dry. May be a sensitizer.

Ingestion Harmful if swallowed.

Summary of Chronic Hazards:

Carcinogenicity Not known to be a carcinogen.

Teratogenicity None known.

Mutagenicity None known.

Reproductive Toxicity None known.

Special Health Effects None known.

Section 3: Composition/Information on Ingredients

Component	CAS Number	Weight %
Diurethane Dimethacrylate	72869-86-4	40-60
Acrylate Resin	3290-92-4	10-30
Dental Glass	41-4	25-50
Triclosan	3380-34-5	1-5

Section 4: First-Aid Measures

Eye contact	Flush the contaminated eye with flowing water for 15 minutes. If irritation persists, obtain medical care.
Ingestion	For large quantities, if person is conscious, dilute with water. Induce vomiting with syrup of ipecac. Give activated charcoal. See emergency physician.
Skin contact	Wash affected area thoroughly with mild soap and water

Section 5: Fire-Fighting Measures

Suitable Extinguishing Media: Use dry chemical, foam, or carbon dioxide to extinguish fire. Water may be ineffective but should be used to cool fire-exposed containers, structures and to protect personnel. Use water to dilute spills and to flush them away from sources of ignition.

Fire Fighting Procedures: Do not flush down sewers or other drainage systems. Exposed firefighters must wear NIOSH-approved positive pressure self-contained breathing apparatus with full-face mask and full protective clothing.

Unusual Fire and Explosion Hazards: Dangerous when exposed to heat or flame. Will form flammable or explosive mixtures with air at room temperature. Vapor or gas may spread to distant ignition sources and flash back. Vapors or gas may accumulate in low areas. Runoff to sewer may cause fire or explosion hazard. Containers may explode in heat of fire. Vapors may concentrate in confined areas. Liquid will float and may reignite on the surface of water.

Combustion Products: Irritating or toxic substances may be emitted upon thermal decomposition. Thermal decomposition products may include oxides of carbon and nitrogen.

Section 6: Accidental Release Measures

For small quantities, as in this product: Wear gloves and splash goggles.

Absorb spill with inert material, such as paper towels. Place all absorbent material in closed container away from heat, sparks, and flame. Wash area of spill with soap and water.

Section 7: Handling and Storage

Handling and Storage Precautions: Store tightly closed at room temperature in a dry area, away from incompatible materials. Empty containers may retain residual product and should be handled appropriately.

Steps to be Taken if Material is Released or Spilled: For small quantities, as in this product: Wear gloves and splash goggles. Absorb spill with inert material, such as paper towels. Place all absorbent material in closed container away from heat, sparks, and flame. Wash area of spill with soap and water.

Waste Disposal Method: Follow all government regulations. Keep spills out of sewers, open bodies of water.

Section 8: Exposure Controls/Personal Protection

Respiratory Protection: Surgical mask is usually adequate.

Ventilation: No special ventilation is usually required.

Protective Gloves: Recommended.

Eye Protection: Safety glasses or splash goggles are recommended.

Other Protective Clothing or Equipment: Emergency eye wash fountain. Dental staff should wear lab coats.

Work/Hygiene Practices: Wash hands after use.

Section 9: Physical and Chemical Properties

Flashpoint: NA
Autoignition Temperature: NA
Boiling Point: NA
Melting Point: NA
Vapor Pressure: NA
Vapor Density(Air=1): NA
% Solubility in Water: Slight
Pour Point: NA
Molecular Formula: Mixture
Odor/Appearance: Paste, acrylate resin odor.
Lower Flammability Limit: NA
Upper Flammability Limit: NA
Specific Gravity: 1.1 -1.6
% Volatile: None
Evaporation Rate (Water=1): NA
Viscosity: Paste
Octanol/Water Partition Coefficient: NA
Molecular Weight: Mixture

PHYSICAL / CHEMICAL CHARACTERISTICS

Boiling Point	Not Applicable
Specific Gravity	1.1-1.6
Vapor Pressure	Not Applicable
Melting Point	Not Applicable
Vapor Density	Not Applicable
Evaporation Rate	Not Established
Solubility in water	Slight
Odor Threshold	Not Applicable
Odor	Acrylate resin
Appearance	Opaque White

Section 10: Stability and Reactivity

Stability/Incompatibility: Incompatible with ammonia, amines, bromine, strong bases and strong acids.
Hazardous Reactions/Decomposition Products: Thermal decomposition products may include oxides of carbon and nitrogen.

Section 11: Toxicological Information

Minimal health hazard under normal conditions of use and storage and in the quantities present in this product.

May be irritating to eyes, skin, or respiratory tract. In large quantities and with prolonged exposure.

Route of Exposure	Signs & Symptoms
Inhalation	No known threat.
Eye Contact	Resins may irritate eyes.
Ingestion	Harmful if swallowed.
Skin Absorption	May cause skin irritation.
Skin Contact	Resins may cause possible allergic skin reaction. Prolonged/repeated exposure may cause skin to become red or dry.
Ingestion	Harmful if swallowed.

Summary of Chronic Hazards:

Carcinogenicity	Not known to be a carcinogen.
Teratogenicity	None known.
Mutagenicity	None known.
Reproductive Toxicity	None known.
Special Health Effects	None known.
Acute Toxicity Values	Not Established
